

PROFESSIONAL SUMMARY

Creative and results-oriented Digital Marketing & Social Media Specialist with years of experience in managing social media platforms, creating digital campaigns, and building online brands. I have extensive experience within the betting and iGaming industry, managing sports platforms with over 90,000 followers. I specialize in using AI tools for content optimization, Figma for design, and Buffer for scheduling, alongside advanced skills in video editing and audience engagement. I am highly adaptable to emerging trends, particularly within the Reels format.

PROFESSIONAL EXPERIENCE

● Funding Bet Company, Netherlands Sep 2025 – Apr 2026

- Betting Industry Expertise: Managing comprehensive marketing strategies and social media presence specifically tailored for the funding bet and gambling sector.
- Content Control & Scheduling: Utilizing Buffer for efficient post management, multi-platform scheduling, and performance monitoring.
- Design & UI/UX: Leveraging Figma to create high-quality social media assets and collaborative design prototypes.
- AI Integration: Implementing various AI tools to streamline copywriting, content ideation, and workflow automation.
- Post Assembly & Editing: Overseeing the full lifecycle of post production, from conceptual montage to final distribution.
- Developed and executed data-driven marketing campaigns and social media strategies that increased user engagement by 45% and boosted Funding Bet Company’s customer acquisition by 30% within one year.

● Freelance / Independent Projects Jan 2020 – Present

- Platform Growth: Managed and developed multiple sports-themed social media pages, including the ownership of a platform with 90,000+ followers.
- Content Strategy: Planning and creating engaging content for Instagram and Facebook.
- Trend Implementation: Tracking and implementing Reels trends, including specific audio, formats, and storytelling techniques.
- Multimedia Production: Editing short-form video content (Reels, promotional videos) and designing visual assets using Adobe Photoshop.
- Digital Advertising: Planning and managing digital campaigns via Facebook & Instagram Ads.
- Optimization: Analyzing campaign results and optimizing performance metrics to ensure maximum ROI.
- AI-Powered Workflow: I use tools like ChatGPT, Gemini, and Grok daily to kill writer’s block, write sharp captions, and plan out entire content strategies in minutes.
- Smart Scheduling: Combining AI-driven insights with Buffer to make sure every post hits at the perfect time for maximum reach.

EDUCATION

● Electrical Technician for Computer Systems and Networks Sep 2022 - May 2026

Montenegro/Podgorica
